Hello Velan,

We've spoken about a possible physical interview at the farm on Thursday. Before doing that, I would just like to see with you if you were able to see with your school if they are okay with an eight-week internship. We have received several applications from your school, and they are all looking for 3 months internship minimum. We have put your profile in priority, so we would like to verify this with you before we proceed.

Thanks a lot, and have a great day!
